SARTHAK GOMBER

New Delhi, India | +91 7827493342 | sarthakgomber@gmail.com
LinkedIn | GitHub | LeetCode | Portfolio

SUMMARY

3rd-year Computer Science undergraduate (GPA: 8.3/10) at Dronacharya College of Engineering skilled in building full-stack and mobile applications using React, Next.js, Node.js, and MongoDB. GATE 2025 qualified. 125+ LeetCode problems solved. Seeking to apply strong engineering fundamentals in a challenging software development role.

TECHNICAL SKILLS

Languages: C++, JavaScript (ES6+), HTML5, CSS3
Frameworks & Libraries: React.js, Next.js, React Native, Node.js, Express.js, Tailwind CSS
Databases & Tools: MongoDB, Git, GitHub, Postman, VS Code, Android Studio

PROJECTS

CreatorFund – Subscription Platform for Content Creators 2024
Next.js, React.js, Tailwind CSS, Node.js

- Built a subscription platform for creators to monetize followers with tiered memberships, post previews, and profile management.
- Implemented authentication flows, protected routes, and payment simulations; optimized with Next.js static generation and code splitting.
- **GitHub:** github.com/sarthakgomber/creatorfund

Linktree Clone – Personalized Link Landing Page 2024
Next.js, Tailwind CSS

- Built a multi-profile link-sharing page with Next.js dynamic routing and responsive Tailwind CSS styling for desktop and mobile.
- **GitHub:** github.com/sarthakgomber/linktree-clone

Safar Suraksha – Travel Digital ID & Safety System 2025
React Native, Node.js, MongoDB, Blockchain

- Developed for Smart India Hackathon 2025 — a full-stack travel safety app with real-time GPS tracking and panic button alerts.
- Built React Native mobile app and web admin dashboard; integrated blockchain, mobile, and web components across the team.
- **GitHub:** github.com/sarthakgomber/safar-suraksha

COMPETITIVE PROGRAMMING & DSA

LeetCode (125+ problems solved): leetcode.com/sarthakgomber | Topics: Arrays, Strings, HashMap, Linked Lists, Trees, Two Pointers

ACHIEVEMENTS

- GATE 2026 Qualified – Score: 411 | All India Rank: 16,511 (Computer Science & IT)
- Smart India Hackathon 2025 – Developed 'Safar Suraksha', a full-stack travel safety system with real-time tracking and blockchain integration as part of SIH preparation.

EDUCATION

B.Tech – Computer Science and Engineering 2023 – 2027
Dronacharya College of Engineering, Gurugram University | GPA: 8.3 / 10.0

Grade 12 – CBSE | 80% 2023
Holy Innocents Public School, New Delhi

Grade 10 – CBSE | 92% 2021
Holy Innocents Public School, New Delhi
